**BONNEY ADJUSTABLE "S" NUT WRENCH**

BONNEY Adjustable "S" NUT Wrenches are designed, primarily, for utility, but in their construction every care has been taken to produce not only strength and durability, but also balance and beauty. The sliding jaw is a drop-forging and the long or fixed jaw is made of the highest grade of malleable iron. All parts are interchangeable. The handle is finished in bright black enamel and the jaws are polished.

MARK

**BONNEY ADJUSTABLE "S" PIPE WRENCH**

BONNEY Adjustable "S" Pipe Wrenches are similar in material and finish to the Adjustable "S" Nut Wrenches described on the opposite page. The sliding jaw, however, is milled with teeth correctly cut to grip both pipe and round iron, and the long jaw is constructed on an angle of correct degree to prevent locking of the wrench when used on particularly difficult work. As in the case of the Adjustable "S" NUT Wrench the parts are interchangeable and the milled jaw can be replaced without difficulty.

BONNEY COMBINATION PIPE AND NUT WRENCH

No. 43 Bright, Short Nut

This wrench is strongly and carefully made, is thoroughly tested in every way and is warranted perfect in material and workmanship. The long jaw and shank is a solid drop-forging. The slide is of highest grade malleable iron and the toggle is drop-forged of special analysis tool steel.

All parts are properly hardened and are interchangeable with BONNEY and similar wrenches. It is especially adapted to the uses of Farmers and Oil-well Operators, to whom the added weight of separate tools would be particularly undesirable.

LIST PRICE, No. 43, SHORT NUT

TRADE

BONNEY

MARK

BONNEY COMBINATION PIPE AND NUT WRENCH

No. 45, Bright, Long Nut

Combination Wrenches Nos. 45 and 46 are exactly the same in every particular as Nos. 43 and 44, with the one exception that the adjusting nut is made in the form of a knurled sleeve instead of the short nut. The knurled sleeve forms a covering for the screw on which the adjusting nut operates and thus protects the thread from bruises and other damage which might easily happen to the screw, by either dropping the wrench on stone or cement or by dropping some heavy article on the wrench.

LIST PRICE No. 45, LONG NUT

THE "MASTERPIECE" WRENCH

Combination Pipe and Nut Wrench and Pipe Cutter

The MASTERPIECE Wrench is similar in construction to the BONNEY Combination Wrenches, but is designed to do even more work than the Combination Wrench for the reason that it contains one additional very useful feature, namely, the PIPE CUTTING ATTACHMENT. This attachment consists of a drop-forged toggle, milled and drilled to hold firmly an eccentric cutting wheel. The eccentric construction of the wheel makes it possible to cut through the average pipe in a very few turns, as every time the high side of the wheel comes in contact with the pipe it makes a deep cut, while a half turn of the adjusting nut, when the wheel is on the low side, will tighten the cutter for the next turn.

The toggle also contains the pipe jaw which is carefully milled and hardened to withstand the roughest use and abuse. When the toggle is in position to turn pipe it rests against a strong spring, which gives it the same action as an individual pipe wrench.

The long jaw is made of drop-forged steel and the frame of highest grade malleable iron. Both are correctly hardened and warranted to be absolutely perfect in both material and workmanship.

**BONNEY HERCULES SCREW WRENCHES**

Bonney Hercules Screw Wrenches are made of the best grade of steel and malleable iron. The long jaw is a drop-forging and the sliding jaw and handle frame are malleable iron. All parts are carefully machined to an accurate fit and are interchangeable. The jaws are case hardened to withstand wear.

These wrenches are warranted against any defects in workmanship and material and against breakage from any cause, except abuse.

They are wrapped one half dozen to a bundle in sizes 6" to 12", inclusive. 15" and 18" are wrapped one third in a bundle and the 21" are wrapped one in a bundle.

BONNEY MALLEABLE GENERAL PURPOSE WRENCHES

Double Head 22½° Angle

These wrenches are made of the highest grade of malleable iron and are particularly designed for household, farm and automobile use. They are so constructed that it is practically impossible to break them with any ordinary use. The price at which a set of five may be sold at retail, namely 50c., except in the far west and Canada, makes this a particularly attractive and rapid selling line.

Packed for domestic trade, twenty-four sets to the case as shown on next page.

No.	Openings Inches	Length, Inches	Price per Doz., Plain Heads	Price per Doz., Polished Heads	No.

BONNEY MALLEABLE GENERAL PURPOSE WRENCHES

These Wrenches are made of the highest grade malleable iron, which gives plenty of strength for any ordinary purpose, and are carefully finished with polished heads. Each set consists of five wrenches, ten openings, packed in a strong individual carton, and there are Two Dozen Sets to the Case.

With each case is enclosed, FREE OF CHARGE, a SHOP CAP and a Sample "BONNEY BOX TOOL" which is strong enough to open the heaviest case, but so small that it can be conveniently carried in the pocket.

These Wrenches should be sold over the counter at not less than Fifty Cents a set. In Canada and the Far West the retail price is Seventy-five Cents per set.

Price per case, \$12.00. Weight per case, 60 lbs.

BONNEY MALLEABLE MACHINERY WRENCHES

These Wrenches are made of the same strong material as our Malleable General Purpose Wrenches; namely, of the highest grade of malleable iron carefully cast so that they are strong, tough and practically unbreakable. The heads are polished.

Each set consists of six wrenches, twelve openings, ranging from $\frac{3}{8}$ " to $1\frac{1}{4}$ " by sixteenths; packed one set to a carton, Twenty-four Sets to a Case.

Included with each case of twenty-four sets, FREE OF CHARGE, is a SHOP CAP and a sample BONNEY "JACK RABBIT" WRENCH, a very handy tool, light yet serviceable, containing openings for eight different sizes of nuts.

These sets should be sold over the counter at not less than 50 cents a set, 75 cents a set in the Far West and Canada.

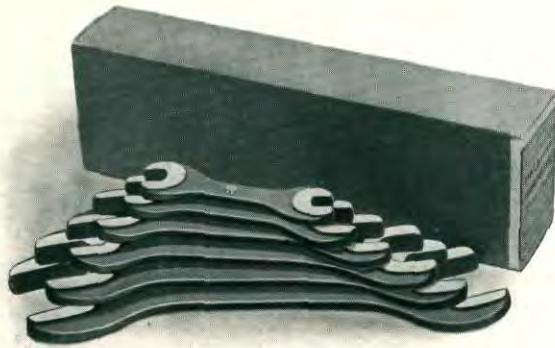

Price per case, \$12.00. Weight per case, 55 lbs.

**BONNEY MALLEABLE MACHINERY WRENCHES****Double Head 15°**

Bonney Malleable Machinery Wrenches are made of the same high grade material as Bonney Malleable General Purpose Wrenches. They are designed for use of such customers as prefer a 15° angle wrench to a 22½° angle wrench. They are slightly shorter than the wrenches for the same size openings in the General Purpose Series but are equally as strong and as well made. These should be sold at 50c. per set of six, at retail, except in the far west and Canada. Packed for domestic trade, twenty-four sets to the case, as shown on preceding page.

**BONNEY COMBINATION PLIERS**

Bonney Combination Pliers are drop-forged from high carbon steel, are carefully machined, hardened and polished. They are made in two finishes; Polished and Nickel Plated, and Blued. Each Plier combines a regular plier, wire cutter and screw driver.

The opening of the jaw can be enlarged to a very wide capacity by turning the handle slightly and by sliding the rivet from one hole to the other.

These pliers are used generally by mechanics of all kinds. They have become absolutely indispensable about an Automobile or Motorcycle.

They are packed in individual cardboard cartons.

**BONNEY CHAMPION VISES**

Champion Vises are made especially for the most particular tool users and are warranted against defects and breakage.

They are manufactured in sizes from $1\frac{1}{2}$ to 3-inch jaw with clamp base and some sizes in both clamp and swivel base designs.

All front jaws are made of high grade semi-steel and the back jaws of best quality gray iron. Some sizes have steel plates inserted in the back jaws. These are particularly desirable for jewelers, die makers and key filers who will use the vise for clamping a great many pieces of the same size.

The screws are turned from bar steel and have lathe cut threads.

All Champion Vises are finished in a bright red baking enamel and the jaws, screws, slides and anvils are highly polished.

Sizes 112 to 120 inclusive are packed two in a cardboard box; all other sizes in individual boxes.

**BONNEY VISES**

Bonney Vises are made for general household and amateur uses. They are lower priced than the Champion Vises, but are made with the same care and attention to fit and finish as our more expensive lines.

The jaws are made of best grade gray iron and the main and thumb screws are cast semi-steel with threads that are all cut, not cast.

The head and collar is of a single piece with the main screw and will not wear out or pull off.

Bonney Vises are finished in black baking enamel with polished screws, jaws and anvils.

All sizes are packed two in a cardboard box.

BONNEY IMPROVED FARMERS' VISES

Straight Jaws

These Vises have hardened tool steel jaws and swivel bases. The jaws have a particularly large range of openings. They are all machined accurately to a close fit and have steel lathe cut screws. The swivels are operated by a malleable iron handle which works on a nut. The adjustment of the swivel base can be made in any position and is accurate and positive.

The vises are finished in a bright maroon enamel and the jaws and anvils are highly polished.

BONNEY IMPROVED COACHMAKERS' VISES

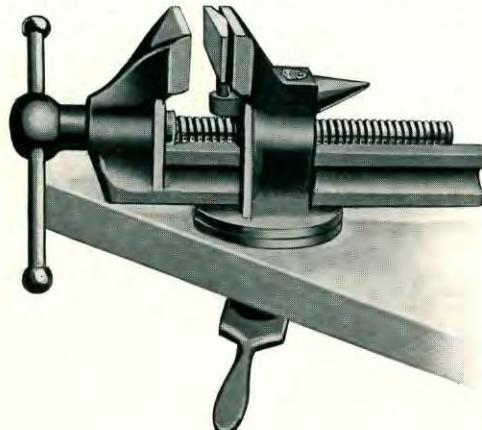

With Straight Jaws

Bonney Coachmakers' Vises are very similar in pattern to Bonney Improved Farmers' Vises. The difference exists only in the width of the face of the jaws and in the position of the jaws in relation to the main screw. The jaws of these Coachmakers' Vises are extended over the center of the screw on one side, thus furnishing a strong and secure grip for long pieces which would extend below the surface of the bench.

Main screws are steel with lathe cut threads and swivel adjustment is the same as on Bonney Farmers' Vises.

THE GIPSY COMBINATION ANVIL VISE AND DRILLING MACHINE

(Patented)

The Gipsy Vise combines four different tools—Anvil, Straight Jaw Vise, Pipe Vise and Drill Press. It is the handiest tool made, for general repair work on the farm or ranch. Also a very useful tool for general repair work in garages.

The Anvil is 7 inches high, 12 inches long and has 4 inch face. The Vise Jaws are $5\frac{1}{2}$ inches wide and open 8 inches. The Pipe Jaws have a capacity from $\frac{1}{2}$ inch to 2 inch pipe. The Drill Spindle is made for square shank drills and can be removed when not in use.

Price Each - - - - - \$10.00

Weight each, 52 lbs.

Finished in green enamel.

MARK

BONNEY INDISPENSABLE LATHE DOGS

Indispensable Lathe Dogs are made of semi-steel castings and are carefully assembled to a close and accurate fit. The bosses are sufficiently large to allow retapping should this be necessary. The screws have U. S. Standard threads and dog points. They are carefully hardened to prevent wear.

One of the advantages of Indispensable Lathe Dogs is that a set of three will do all the work of sixteen Heavy Steel Dogs. This means a great saving as the mechanic need not spend his time looking for the proper size for his work.

Another advantage is that Indispensable Lathe Dogs can be attached to the work after it is centered on the lathe. This means a great saving in time on delicate work.

Indispensable Lathe Dogs are warranted against breakage or against defects of material or workmanship.

PRICE LIST

**BONNEY BOX TOOL****Drop-forged from bar steel**

Bonney Box Tools are designed for the use of Green Grocers, Produce Men, Fruit Packers and Farmers. They are also found to be very useful in the shipping and packing departments of all business houses. For the reason that they are light, strong and yet not bulky, they are a very handy pocket tool. Finished in dull black with head and blade polished.
